REPORT ON THE ADMINISTRATION OF THE STATE LIFE INSURANCE FUND FOR THE YEAR 1108 M. E.

Control.— The rules introduced in Edavom 1099 with certain additions made during 1107 continued to be in force during the year.

The employees of the State and those of the funds pensionable from the General Revenues are eligible for insurance.

The fund is administered by the Financial Secretary to Government. The insurance is optional, but it has been made compulsory from 1st Meenom 1107 in the case of those who do not join the State Provident Fund.

Proposals.— There were four proposals pending at the close of 1107 and 25 fresh proposals were received during the year. Thus there were 29 proposals to be dealt with against 25 in the year before. Policies were issued in respect of 20 proposals against 18 in 1107 and two proposals were withdrawn thus leaving a balance of 7 either due to want of age certificate or due to the delay in the payment of first premium.

Policies.— The number of policies in force at the beginning of the year was 824 and 21 policies were issued during the year 20 as stated above and the remaining one being a paid up policy issued in lieu of 3 policies removed from the registers. The number of policies removed during the year were 45 against 27 in the previous year as below :—

35—maturity by age,
6—maturity by death,
3—by issue of a paid up policy, and
1—by lapse under Rules 37 and 38.

45 Total.

Thus the number of policies in the books at the close of the year came down to 800 against 824 in the previous year. This is especially due to a large number of policies having been matured by age during the year under report.

Claims.— Including 8 claims that were pending at the close of 1107, the number of claims to be investigated came to 33 against 26 in the year before. Of the 33 claims referred to above, 25 were disposed of during the year against 18 in the previous year leaving a balance of only 8 at the end of the year. Of these 8, five were pending due to the delay in the production of succession certificate, one due to the non-expiry of the period of notification and two having received towards the close of the year.

Receipts and payments.—The year opened with a balance of Rs. 4,18,040-14-13. Total receipts during the year came to Rs. 37,830-11-15, as below :—

Premia realised with interest on delayed payments	...	Rs.	21,625-26-10.
Loan Refunds with interest	...	,,	446-5-4.
Interest allowed to the balance to the credit of the fund	...	,,	15,743-8-1.
		Rs.	37,830-11-15.

Thus the total amount to the credit of the fund during the year came to Rs. 4,55,870-26-12.

A sum of Rs. 5,893-26-15 was paid to the heirs of the deceased policy holders and a sum of Rs. 25,291-8-4 to the policy holders whose policies matured by age. Another sum of Rs. 1,980-11-4 had to be incurred in connection with the actuarial valuation of the fund. Thus the total expenditure came to Rs. 36,103-18-7 including the amount of Rs. 2,933 advanced as loan to Policy holders. The balance to the credit of the fund was Rs. 4,19,767-8-5, against Rs. 4,18,040-14-13 in the previous year in spite of the heavy expenditure during the year.

A sum of Rs. 146-5-4 has been repaid as principal and interest during the year.

Actuarial Valuation.—The report of the actuary for the 3rd quinquennial valuation was received and it disclosed a surplus of Rs. 25,935-14-0 for the five years ending 1106. The Government of His Highness the Maha Raja have been pleased to sanction the distribution of more than ¾ of the profit as bonus to Policy holders by declaring 1 per cent. per annum or Rs. 50 per 1000 for the quinquennium. TRIVANDRUM, TUESDAY, 19th December 1933 / 4th Dhanu 1109.

Excise Department

NOTICE

Tenders are invited for the manufacture and supply of arrack distilled from palmyra jaggery for the use of the independent arrack shops in the Revenue Divisions of Trivandrum, Quilon and Kottayam and in the Peermade taluk of the Devicolam Division and for the manufacture and supply of Coco-brandy to the shops specially established for the purpose during the Malabar year 1110 and 1111.

2. Tenders should be sealed with wax and superscribed "Tender for the manufacture and supply of jaggery arrack and Coco-brandy." They should be addressed to "The Excise Commissioner, Travancore, Trivandrum" and posted in time to reach him on or before the 11th Makaram 1109|24th January 1934. Tenders received after 1 P. M. on that date will be rejected.

3. Each tender should be accompanied by a deposit of Bh. Rs. 500 (five hundred) in cash or in currency notes and should specify the lowest rate per gallon of proof strength at which the tenderer is prepared to manufacture and supply both jaggery arrack and Coco-brandy. The rates for other strengths of arrack which the contractor may be called upon to supply will be proportionate to the rate quoted for the proof strength.

4. When a tenderer makes his offer for another, he will not be recognised unless he forwards with his tender a duly executed power-of-attorney from his principal.

5. The tenderer must show that he has enough capital to keep the distilleries in work and to carry out the contracts and either has himself a sufficient knowledge of distillation and the care and management of stills to prevent deterioration of the property or can secure the service of a competent manager.

6. The tenders will be opened by the Excise Commissioner at his office at 1 P. M. on 11th Makaram 1109|24th January 1934 in the presence of such of the tenderers or their authorised agents as may be in attendance. No acceptance of a tender will be deemed final as against Government unless confirmed by Government who are at liberty to accept or reject any tender without assigning any reason or to make such arrangements for the manufacture and supply of arrack as they may deem proper in their own interests. The confirmation of the acceptance of a tender will be communicated in writing or by telegraph to the tenderer as soon as practicable.

7. The deposits of unsuccessful tenderers will be returned as soon as possible after the contract is settled. In the case of the successful tenderer, the deposit will be retained as security against defaults until the full amount of the security is furnished as per clause 8.

8. The tenderer, the acceptance of whose tender has been confirmed by Government, shall deposit, within a week from the date of communication to him of such confirmation, a security of Bh. Rs. (15,000) fifteen thousand inclusive of the sum of Bh. Rs. 500 already deposited. The deposit which may be either in cash or in currency notes will be invested in the Sirkar Savings bank. When the full deposit as described above has been made, the person whose tender has been accepted shall execute an agreement binding himself, his heirs, successors and assigns to the conditions hereinafter set forth. If he fails to deposit the additional security as required above or fails or refuses to execute the agreement within a week from the completion of the deposit, the deposits already made will be forfeited to Government and the privilege will be disposed of otherwise as Government may determine at the risk of the defaulter.

9. The successful tenderer on the acceptance of his tender by Government is liable to the penalties prescribed for breaches of the conditions set forth below, though a formal license may not have been issued to him.

10. As soon as the agreement has been executed, the Excise Commissioner will issue a license assigning to the party whose tender has been accepted the exclusive privilege of manufacturing and supplying the two kinds of spirits referred to in the first clause of this notice subject to the following conditions:—

CONDITIONS APPLICABLE TO JAGGERY ARRACK.

11. The contractor engaged shall manufacture arrack in the Government distillery at Nagercoil. The distillery building, the plant, wash backs, vats and other equipments in the distillery connected with the distillation, storage and issue of liquor will be let out to the contractor. The trained staff required for working the continuous still and the pot stills but not for the preparation of wash and other purposes, will be supplied by Government. The trained staff shall consist of one distiller, a still attendant, two firemen and two pump attendants. These departmental subordinates will be under the exclusive control of the department and they will be responsible for the proper working and upkeep of the plant, the funds required for the maintenance of the plant during the contract period being supplied by the contractor.

12. For the use of the distillery, plant, etc. the contractor shall pay to Government a monthly rent of Rs. 200 (two hundred) which shall be remitted into the Agasteeswaram treasury on or before the 15th day of each Malabar month commencing from Chingom 1110. He shall also pay to Government another sum of Rs. 200 (two hundred) per mensem on account of the trained staff employed for working the continuous still. This sum shall likewise be paid into the above treasury on or before the 15th day of each Malabar month. All the expenses connected with the working and upkeep of the plant, supply of materials, manufacture, transport storage and issue of arrack shall be borne by the contractor.

13. The maintenance works connected with the buildings will be attended to by the Government.

14. Distillation shall be conducted in accordance with the rules applicable to the distilleries as they exist at present or as may be modified from time to time and also in accordance with the instructions issued from time to time by the Excise Commissioner.

15. The contractor shall pay the distillery staff overtime fees at such rates and subject to such conditions as may be determined by the Excise Commissioner for working on Sundays and other authorised holidays or beyond the usual working hours on working days.

16. The materials used in distillation shall be of good quality and no ingredients noxious to health shall be used in distillation. On these points the decision of the Excise Commissioner shall be final and binding on the contractor.

17. The contractor shall at his own cost daily remove from the premises of the distillery the spent wash discharged from the stills on the previous day and deposit the same in such place or places as may be set apart for the purpose. Provided, however, that if the Government so desire they should be free to remove for their own use the whole or any portion of the spent wash, in which case the contractor shall remove only the quantity that may remain after such appropriation.

18. The contractor shall provide a saccharometer and a thermometer of a kind approved of by the Excise Commissioner for testing the gravity of the wash in the distillery. All the rooms, plant and vessels in the distillery and the premises shall be kept by the contractor scrupulously clean.

19. The contractor shall always maintain at the distillery a stock of raw materials sufficient to meet 15 days' average consumption of the same.

20. The contractor is prohibited from manufacturing country-made foreign liquor or any liquor other than what he is directed to manufacture by the Excise Commissioner. The Government shall be at liberty to make any arrangement they may deem fit for the manufacture and sale of such foreign liquor.

21. The contractor shall, at his own cost, arrange for the transport of arrack from the distillery to the warehouses established for the purpose. It shall be his duty to adopt such safeguards as will prevent theft for loss of arrack during transport and to carry out such instructions as may be issued by the Excise Commissioner, from time to time, in this behalf. He will be

held responsible for the loss by theft or otherwise of any arrack under bond during transport through his neglect or through the carelessness or malfeasance of his servants or agents. The contractor shall at the following places open and maintain warehouses where arrack shall be kept in store under bond subject to such rules in that behalf as may, from time to time, be passed by Government:—

1	Eraniel	11	Adoor	21	Lalom
2	Vilavancode	12	Padanayarkulangara	22	Vaikom

22. Wherever Government buildings intended for use as warehouses are available, the contractor shall use only such buildings for warehouse purposes paying such reasonable rent for them as may be determined by the Excise Commissioner and in places where no such Government buildings are available the contractor shall use as warehouses only such private buildings as are approved of by the Excise Commissioner.

23. It shall be lawful for the Excise Commissioner to forbid the use as a warehouse of any building owned by or in the possession of Government or of any private building, should at any time he be of opinion that any such building is insecure or such as cannot be properly guarded. The contractor shall then be bound to engage or provide himself with another building approved of by the Excise Commissioner and maintain a warehouse in such other building in lieu of the one, the use of which as a warehouse is so forbidden.

24. The contractor shall supply every warehouse with a hydrometer, and if required, with a thermometer and a test glass as well, the same being of the make and quality approved of by the Excise Commissioner. In case of failure to do so, the Excise Commissioner may, besides the penalty leviable for such default, arrange for the purchase of the required number of hydrometers, thermometers and test glasses and recover the cost of the same from the contractor from his deposit or otherwise.

25. The spirits stored in warehouses shall be stored either in vats or in casks, the capacity of such vats or casks being legibly cut, branded or painted on the same and the contractor holding himself responsible for the correctness of such marks made. In the case of casks of the capacity of 80 gallons and upwards the capacity of same shall be marked to the nearest half gallon and in the case of those of smaller capacity to the nearest quarter gallon. The contractor shall also keep correctly marked dip rods and measurement tables for correctly and accurately gauging the contents of vats and casks.

26. The contractor shall agree to the above mentioned warehouses being subjected to inspection at any time by any officer of Government who may be deputed in that behalf. Each warehouse shall be under double lock and key, the key of one lock remaining with the Excise Inspector or other officer appointed to be in charge of the warehouse and the key of the other lock being with the contractor's agent employed at the warehouse.

27. The contractor shall always and at all times keep in stock in the distillery and in each warehouse such quantity of spirits as, in the opinion of the Excise Commissioner, is required to cover the demand for a month immediately next following and whenever such stock falls short of such minimum quantity, it shall be lawful and competent to the Excise Commissioner to make any arrangement for ordering in such quantity as would make up the required minimum, the cost and charges whereof being recoverable from the contractor in any manner determined upon by the Excise Commissioner.

28. The contractor shall during the period of his contract supply the quantities of arrack of 30° and 35° U. P. strengths to the independent arrack shop keepers at the rates agreed to by him. He shall also supply at rates which are proportionate to the rates mentioned above arrack of such other strengths as he may, from time, be directed to supply.

29. The contractor shall issue and supply arrack only to the licensed arrack shop keepers engaged under the independent shop system in the taluks of the Revenue Divisions of Trivandrum, Quilon and Kottayam and in the Peermade taluk of the Devicolam Division. It shall however, be competent to the Excise Commissioner to call upon the contractor to supply to Government institutions including temples, colleges, hospitals, etc., and also to private or grant-in-aid medical institutions arrack of any strength that can be manufactured in the Nagercoil distillery and the contractor shall be bound to manufacture and supply such arrack accordingly, the supply price for such arrack being proportionate to the rate agreed to for arrack of other strengths as per clause 3.

30. The spirits issued by the contractor shall be of good quality and it shall be lawful for the shop keepers to object to the quality of the spirits supplied only before taking delivery of same and not at any time thereafter when the validity of such objection shall be decided on by the Excise Commissioner whose decision in the matter shall be final and binding on the contractor as well as the shop keepers.

31. The contractor shall supply and issue spirits to the licensees entitled to demand same with all reasonable expedition and in such quantities and of such strengths as may be required by them on payment of the prescribed duty and other charges, if any, due to Government into such Government treasuries of the several Revenue Divisions as may be directed by the Excise Commissioner.

32. The contractor shall conform himself to the procedure hereunder laid down in regard to the issue of spirits from the distilleries and warehouses maintained by him to shop keepers.

(i) No spirits shall be issued by the contractor without receiving an order in writing therefor from the officer in charge of the distillery or warehouse from which the issue has to be made and without examining and satisfying himself from the treasury receipt which shall accompany the order for issue that the full amount of the duty and other charges, if any, due to the Sirkar on the quantity of spirits specified in such order has been duly paid.

(ii) The duplicate of the said order for issue shall be signed and returned by him to such officer after marking thereon the time of the receipt of the order. The treasury receipt shall likewise be returned to the above said officer with a certificate thereon as per the next following sub-clause.

(iii) On the reverse of the treasury receipt which shall accompany the order for issue, he shall enter the amount of the cost price due to him on the quantity specified in the order for issue at the rates agreed to by him and described in clause 28 supra and shall also certify therein that he has received in cash the said cost price.

33. The contractor shall issue spirits to the licensees as specified in clause 31 within (48) forty-eight hours (exclusive of intervening recognised public holidays) of the receipt of the order for issue of spirits and on failure to do so such penalty for the same as may be fixed by the Dewan not exceeding Bh. Rs. (5) five per diem per gallon not so supplied during the period of such failure shall be paid by the contractor and it shall be lawful and competent to the Government to realise such penalty out of any sums that may be due to him from Government or from the sum of Bh. Rs. (15,000) fifteen thousand deposited by the contractor as security for the fulfilment of the contract or in any other manner the Government may deem fit. If the contractor fails to supply the arrack demanded by the licensees, it shall be lawful for the Excise Commissioner to make any arrangement he deems fit for the supply of the required quantity of spirits to be issued to the said licensees and it shall be competent for the Government to realise from the contractor in any manner the Government may deem fit all the cost and charges incurred by reason of such supply as well as any loss which Government may sustain on account of duty or otherwise. Notwithstanding anything said above, the supply contractor is bound to issue arrack to the licensees on the first day of Chingom 1110 without insisting on the time limit of 48 hours.

34. In case any quantity of such spirits is found to differ in strength from the recognised strength at which such spirits were issued from distilleries and warehouses, the contractor shall agree to take such quantity for the purpose of redistillation or blending and give in lieu thereof without claiming compensation of any kind such quantity of spirits of the required strengths as will be equivalent to the quantity in terms of proof strength taken by him for such redistillation or blending.

Locality.—Pathiyoor.

Tenders sealed and endorsed as such, should be delivered at the office of the undersigned on or before the 21st Dhanu 1109/5th January 1934 after which day they will not be accepted by the undersigned. None but those that have deposited permanent earnest money need tender.

If he fails to do this the earnest money will be forfeited to Government and the contract put up to auction again. If it results in any loss to Government the same will be recovered from him in due course, but should the contract be given to another contractor at a profit to Government the original contractor shall have no claim whatever to the profit.

The contractor must tender for the whole work and quote specific rates for the several items of work.

The acceptance of the tender rests with the Maramath Engineer, who does not undertake to accept the lowest or any particular Tender.

The Department reserves to itself the right of putting the contract for this work up to auction, or of carrying out the work in any manner different from the terms of this invitation that may be thought fit, subsequent to the receipt of Tender.

NOTICE.

The provisions contained in the following rules are not generally complied with by many owners of motor vehicles and professional drivers. They are requested to adhere to them to avoid prosecutions before courts:—

Rule 6. Every transfer of ownership and every transfer of possession, whether temporary or otherwise, of a motor vehicle registered under these rules must forthwith be reported to the registering authority by the registered owner and by the transferee. The certificate of registraon in Form C shall also be forwarded by the transferee to the registering authority who shall endorse the transfer thereon.

Rule 7. Should the registered owner of a motor vehicle change his address, he shall, within fifteen days of taking up his residence at his new address, inform in writing the registering authority of such change of address giving particulars of the registered number of the vehicle.

This rule shall not apply to owners—

(i) who simply tour the country and do not change their home address, or

(ii) who temporarily reside elsewhere than at the address entered in the certificate of registration for a period not exceeding four months.

For the purpose of this rule, the expression "registered owner includes any person having possession of a motor vehicle whether temporarily or otherwise."

Rule 21 (A). Whenever a professional driver changes his address he must report his new address within forty-eight hours of the change to the licensing authority.

NOTICE.

In supersession of this office notification, dated 14th October 1924 published as a Standing Notification in the Government Gazette, it is hereby notified for the information of those whom it may concern, that all steam and motor boats plying for hire with passengers in Travancore waters should be of good beam (breadth as flat in the bottom as possible) and of full form towards the ends, in order to conform to the requirements of the rules for the stability of shallow draft vessels. So far as possible, only vessels of this class should be fitted for carrying upper deck passengers.

The term 'flat in the bottom' does not mean vessels of box section only, but includes vessels with rounded bilges and of full form towards the ends.

Vessels with cylindrical shaped bottoms which rise sharply towards the ends, require more or less ballast to ensure stability, and are not suitable for plying in shallow waters. This class of vessels is of the sea-going type.
